1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. S. Cha on 6/20/2007.

2. The application has been amended as follows: The claims are amended as follows:

1. A device for filtering null packets for use with a transmission device that transmits data to a backbone network, the device comprising: a plurality of interfaces for receiving parallel data; a filter unit to determine respective numbers of data packets and non-data packets of the data from the interfaces and ~~filtering~~ to filter a null data packets in the data from the interfaces ; and a controller to determine a bit rate based on the respective numbers of the data packets and the non-data packets of the data after filtering the null data packets.

10. A method for filtering null packets in data transmission to a backbone network, the method comprising the steps of: receiving parallel data in a plurality of interfaces; determining respective numbers of data packets and non-data packets of the data from the interfaces; filtering a null data packets in the data from the interfaces; and

determining a bit rate based on the respective numbers of the data packets and the non-data packets of the data after filtering the null data packets.

3. The following changes to the drawings have been approved by the examiner and agreed upon by applicant: The "PRIOR ART" label in fig. 2 has been deleted. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

4. The following is an examiner's statement of reasons for allowance: The prior art of the record fails to disclose a filter unit to determine respective numbers of data packets and non-data packets of the data from the interfaces and to filter null data packets in the data from the interfaces ; and a controller to determine a bit rate based on the respective numbers of the data packets and the non-data packets of the data after filtering the null data packets in combination of other limitation recited in claims 1 and 10.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
